

I listen to K-Love almost every single day. It helps me to focus on my God and my Faith and my love of Jesus Christ. It is extremely encouraging and uplifting in a world that usually isn't either.

If K-Love were to be taken off the air I feel the community would lose out. There are so very few organizations that exist for the betterment of people and community. So many radio stations tear people down, they are demeaning and vulgar, in an lame attempt at entertainment and try to pass it off as humor. Other stations do not uphold the Christian values that this nation was founded on, and the liberal media is doing its best to squash.

This station recognizes the sovereignty of God Almighty and encourages people to pursue a vital relationship with the one true living God.
